NOTES

Page 12 LOCAL TAX REVENUE

Data in this table is as reported by individual county governments on the Revenue Sharing Form RS 9. The 'total' figures include (1) all taxes levied specifically for a particular county - whether collected by the county or the state government, such as property, sales and gasoline taxes and (2) all licenses, fees and permits such as auto tags, drivers license, privilege license, hunting permits, etc. County officials' fees or commission deducted from taxes, permits or licenses are also included.

Pages 16 and 17 COUNTY SCHOOLS

Expenditures in the ***Annual Reports*** of the State Board of Education do not include certain monies distributed at the State level, primarily textbooks, teacher retirement, and Social Security, therefore, per pupil expenditures computed from these ***Reports*** are lower than those figured at the national level by state and reported in the ***Statistical abstract of the United States***. In addition, the county figures reported on pages 16 and 17 do not include expenditures, pupils or teachers in the 60 city school systems in the State which enrolled 228,325 pupils in 1982-83, nor are private schools included which enrolled approximately 54,303 pupils in 1979-80.
